Compatibility of Pegasus Solar's LightSpeed Mount Rail-Free System with Solaria PowerXT Modules

This letter authorizes installation of Solaria's PowerXT-xxxR-PD and PowerXT-xxxR-BD Solar Modules using Pegasus Solar's LightSpeed Mount Rail-Free System with the following mounting and loading conditions:

1. Landscape Mounting: Maximum attachment span of 72 inches, maximum cantilever of 17 inches, and maximum loading of 2400Pa (front) and 2400Pa (rear).
2. Landscape Mounting: Maximum attachment span of 48 inches, maximum cantilever of 12 inches, and maximum loading of 5400Pa (front) and 2400Pa (rear).
3. Portrait Mounting: Maximum attachment span of 48 inches, maximum cantilever of 17 inches, and maximum loading of 2400Pa (front) and 2400Pa (rear).

All other provisions of Solaria Installation Manual (SPS-1006 R07 Solaria PowerXT-R) apply and remain in force. Solar systems mounted in accordance with the provisions of the installation manual and within the exceptions provided in this letter are covered under Solaria's Limited Product Warranty (Solaria-PowerXT-Warranty-R5-June-2017).
