Easier Installations Watertight for Life

Pegasus Solar's Tile Replace Mount eliminates grinding of tiles and gives you extra tiles to replace broken tiles. Reduce fatigue and increase crew productivity by making installations easier and faster.

25-Year Warranty

Manufactured with advanced materials and coatings to outlast the roof itself.

Universal

Fits most tile thickness and batten or batten-less roofs. S-flashing works on concrete and clay tiles. Compatible with

Code Compliant

Fully IBC/CBC Code Compliant
Exceeds ASCE 7-16 Standards
Tested to AC286

Kit Packaging

Flashing kit includes flashing, post, mounting bolt and EPDM boot. Sled kit includes universal sled, SS lags and base flashing (optional).

1

Remove tile to be replaced and locate rafter

2

Install sled over optional base flashing and drive lag screws to required embedment. Waterproof per all applicable codes and standards as required by the AHJ.

3

Slide replacement flashing under left and up-roof tiles, ensuring post hole lines up with the sled channel.

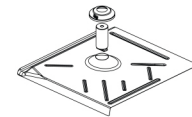

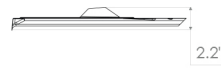

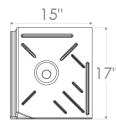

4

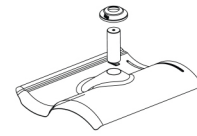

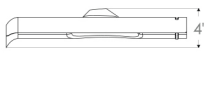

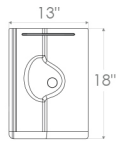

Insert post with T-bolt into sled channel. Once engaged, rotate post clockwise to tighten T-bolt. Install EPDM boot over post and snug to flashing.
